George Javier McKerrow, CCTP

George Javier McKerrow was raised on the island of Tiree in Scotland, and joined the British Army at seventeen years' old.

He served for twenty-four years in the British Army and retired as a Sergeant Major. At that time, George was qualified as a Combat Engineer, Paratrooper, Explosive Ordnance Disposal (EOD) Technician and a High-Risk Search Advisor. During this tenure, he deployed on operational Tours to Northern Ireland, Falkland Islands, Bosnia, Kosovo, Afghanistan and Iraq.

George was also involved in United Kingdom (UK) Home Office Counter Terrorism planning exercises and attended cabinet level talks on UK Homeland security response issues. He was later appointed as a Senior Military Instructor at the UK Counter Terrorism Search Wing.

On his final military assignment, George was sent from the United Kingdom to assist the United States Joint Improvised Explosive Device Defeat Organization (JIEDDO) from August 2006 to September 2008. He developed a program of Instruction that could be taught to the United States (US) Warfighter for Counter Improvised Explosive Device (CIED Search/Tactical Site Exploitation (TSE)). He was hand-picked for this mission as the UK Military Subject Matter Expert (SME).

George continued working as a US contractor teaching EOD & CIED to US Military personnel and coalition Special Forces in Hungary and Slovakia. George also deployed to Afghanistan for a total of 18 months as a Team Leader (armed) where he travelled to remote austere locations training both Afghanistan Military and Police units on CIED Tactics, Techniques and Procedures.

George is currently working in Kurdistan as a CIED Operator where he is training a local demining company how to assist with Search & Detect for IEDs. They are responsible for clearing cities and towns that were previously occupied by ISIS Forces.
